Since 1936

**CHEMICALS**

Manufacturer of Sealants

## REFERENCES

**PROFESSIONAL QUALITY**  
**HIGH SERVICE**  
**STRONG BRANDS**

DL Chemicals, founded in 1936, is a successful producer of sealants and adhesives. For 75 years now, DL Chemicals has only been manufacturing products with a high and constant quality level, for the professional market.

DL Chemicals offers a full range of silicones, MS polymers and hybrid sealants, acrylic sealants, PU sealants, PU foams, glues... Besides, DL Chemicals has a large range of side products such as joint tapes, cleaners, primers, bitumen-based roofing products, hydrofuges, filling guns...

On the following pages we want to give you an idea of the variety of applications the products of DL Chemicals can be used for. This is only a small representation of the many projects that have been executed with the products of DL Chemicals.

# DL Chemicals offices & warehouse

Splenterbeekstraat 4, 8710 Wielsbeke, Belgium

## Project executed by

Van Maercke, building contractors, Kluisbergen, Belgium

(\*) With the exception of some colours: Taupe Metal 0627, Brown Natural 7013, Anthracite Authentic 7016, Grey Metal 9006, Aluminium Rich 9007, Green Sage 8715, Copper Metal 9115 and Brown Starlight 9015

(\*\*) With the exception of some colours: Black Starlight 0337, Taupe Metal 0627, Grey Metal 9006, Aluminium Rich 9007, Green Sage 8715 and Red Terracotta 8815

#### General remarks

Always use glue/silicone/tape brands recommended by AGC and follow exactly the instructions supplied by the adhesive manufacturer (particularly regarding the quantities of adhesive to be used per m<sup>2</sup>). The use of any other adhesive not validated by AGC is the sole responsibility of the user/customer.

For 'light' colours (White Pure Ref 9003, White Soft Ref 9010, White Pearl Ref 1013, Red Luminous Ref 1586), AGC recommends using transparent silicone and painting the entire wall/substrate in a uniform white colour.
